

# Trusted Certification

## What's Inside?

- Certification Overview
- Accessibility Standards and Compliance
- Monitoring and User Support
- Webability Statements
- Certification Status

## Certification Overview

The **Trusted by Webability** certification represents a commitment to digital accessibility and inclusive user experiences. This certification confirms that the above-referenced website has partnered with Webability to help provide an accessible experience for website visitors.

Webability's web accessibility certification process may involve a combination of automated testing and accessibility expert evaluation with the goals of identifying and reducing accessibility barriers, supporting conformance with recognized accessibility standards, and ensuring an optimal user experience for all users, regardless of individual ability.

## Accessibility Standards and Compliance

Webability continually monitors the most recent **Web Content Accessibility Guidelines (WCAG)** published by the **World Wide Web Consortium (W3C)**. The accessibility services applied to this website are intended to support ongoing progress toward WCAG 2.2 Level AA Success Criteria.

Webability monitors this website and, where applicable, the platform hosting it for potential accessibility issues related to WCAG Success Criteria. The services applied are routinely evaluated to support ongoing accessibility improvements. Webability also monitors relevant digital accessibility laws, regulations, and practices, including the **Americans with Disabilities Act (ADA)** and applicable state and international requirements.

## Monitoring and User Support

While Webability's JavaScript is active, Webability attests that:

- Webability activation has been completed.
- Testing & Discovery is ongoing with continuous monitoring.
- Remediation and validation efforts are ongoing.
- The Webability Accessibility Help Desk is active.

These services may include automated evaluations, continuous monitoring, regularly scheduled expert audits, and periodic releases designed to improve accessibility and usability, including for users of assistive technologies. In this ongoing effort, Webability's technology has already made progress in removing accessibility barriers and will continue to enhance the website over time.

Webability provides a **24/7 Accessibility Help Desk**, allowing website visitors to report accessibility barriers or grievances should they be encountered. Submissions are reviewed and prioritized for resolution. The Help Desk also provides personalization tools that allow users to customize their browsing experience based on individual accessibility needs.

## Webability Statements

- Webability continually monitors the most recent WCAG guidance issued by the W3C
- Webability continually Webability has taken steps to help improve and maintain the accessibility of this website
- While the related JavaScript is active, Webability monitors this website and/or the platform hosting it for potential WCAG Success Criteria issues

- Webability routinely evaluates the services applied to improve accessibility conformance.
- Webability offers support resources that promote accessibility best practices.
- Webability periodically monitors applicable digital accessibility laws and regulations, including the ADA and relevant international standards.
- While the related JavaScript is active, Webability supports a 24/7 Accessibility Help Desk for reporting accessibility issues and grievances.
- While the related JavaScript is active, personalization tools are provided to help users customize their browsing experience.

## Certification Status

Based on ongoing monitoring, remediation, validation, and support activities, Webability certifies that this website is actively monitored and remediated to improve accessibility conformance and overall usability.

Accessibility efforts are reviewed on an ongoing basis, and adjustments may be applied to address identified barriers and support users of assistive technologies.

Accordingly, the website has been granted **Webability Trusted Certification Status**, which reflects an active accessibility program and remains valid while Webability's services and related JavaScript remain enabled.

*This certification reflects ongoing accessibility monitoring, remediation, and support activities conducted by Webability. Certification status remains valid only while Webability services and related JavaScript remain active on the website.*
